### **Introduction:**

A Quality Policy is a requirement of any formalized quality management system (QMS), and its purpose is to set the framework for the commitment of the scope of the QMS for internal and external stakeholders.

A Quality Policy is typically a brief statement that aligns with an organization's purpose, mission, and strategic direction. It provides a framework for quality objectives and includes a commitment to meet applicable requirements (ISO 9001, customer, statutory, or regulatory) as well as to continuous improvement.

- Maintaining a healthy environment in and around our college complying with applicable regulatory and other requirements.
- We ensure the above by continual improvement of our processes of teaching, learning & training faculty competence.
