Ph.No: 6033322532. E-mail: bhavanbedc\_trip@rediffmail.com

Website: [www.btcte.in](http://www.btcte.in)

### **Micro teaching**

Micro teaching is a teacher training technique that simplifies the teaching process. It involves teaching a small group of students (5-10) for a short period of time (5-10) minutes to focus on developing specific teaching skills.

Content is divided into smaller units. Only one teaching skill is considered at a time. In micro teaching cycle, there is facility of re-planning, re-teaching and re-evaluation.

### **Practice teaching**

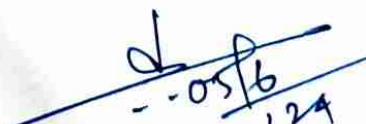

Teaching practice is an important component of becoming a teacher. It grants student teachers experience in the actual teaching and learning environment.

During practice teaching, a student teacher is given the opportunity to try the art of teaching before actually getting into the real world.

Here, teaching is done by a trainee under the supervision of an experienced teacher.
